INTRODUCTION

The Campus Security Act (Jeanne Clery Act) of 1990 and the Student-Right-To-Know Act (PL 101-542) were signed into law by President Bush on November 8, 1990. This federal legislation requires higher education facilities to collect campus crime statistics on specific crimes occurring on campuses; report steps taken to establish a reliable system to warn students of immediate and/or continuing threats to their safety; how to report criminal acts; the authority of campus security or police department; drug and alcohol policies; sex offense and offender policies and if applicable an annual fire safety report. On March 7, 2013, the Campus Sexual Violence Elimination Act was passed as part of the Violence Against Women Reauthorization Act (VAWA) amending the Jeanne Clery Act reporting responsibilities.

The report contains information on crimes and incidents occurring during the previous calendar year. This information is published on www.metrotech.edu each year.

Metro Technology Centers believes in the worth of all individuals and is committed to equal opportunity for each employee, student and community citizen visiting a District campus. Metro Technology Centers does not discriminate on the basis of race, color, national origin sex/gender, age, marital or veteran status, religion, pregnancy, or qualified disability in recruitment, hiring, placement, assignment to work tasks, hours of employment, levels of responsibility, and pay.

NOTICE OF AVAILABILITY OF ANNUAL SECURITY REPORT

The Federal Student Right-to-Know, Crime Awareness and Campus Security Act, now cited as the “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” and herein identified as the “Clery Report,” requires institutions of higher education to annually prepare and publish a report concerning campus crime statistics and security policies. The report is distributed to all current students and employees, as well as to all prospective students and employees, on www.metrotech.edu. The report contains annual specific campus crime and arrest statistics and campus policies and practices intended to promote crime awareness, campus safety and security. This report is prepared by the Metro Technology Centers, Chief Officer, Environmental Safety and Regulatory Affairs, Melanie C. Stinnett.

Copies of this report may be obtained by visiting www.metrotech.edu. A copy of this report can also be obtained in person by contacting Chief Officer, Environmental Safety and Regulatory Affairs, Melanie C. OBTAINING REPORTS

Requests for incident reports for events on campus (or traffic crash reports for crashes on campus property) by persons involved generally will be processed when the investigation is completed. Metro Technology Centers faculty, staff, and students are not charged for obtaining report copies when involved in the reported incident.

Metro Technology Centers is committed to complying with its obligations under the Freedom of Information Act (F.O.I.A.) without undue delay, but realizes that under certain circumstances the release of records may have an impact on victims, witnesses and the integrity of investigations. If an investigation is ongoing and still open, a request for any related Metro Technology Centers incident report may be denied and information of a personal nature will be withheld or redacted where the public disclosure of such information would constitute an invasion of privacy.

ACCESS TO CAMPUS FACILITIES

The Metro Technology Centers campuses are open Monday through Thursday, 7:30 a.m. to 10:00 p.m., and Friday, 7:30a.m. to 4:30 p.m. according to the Board of Education-approved calendar. Metro Technology Centers reserves the right to change operating hours and access to campus facilities in the event of an emergency. Such events may include but are not limited to temporary closures due to inclement/severe weather, loss of power or other conditions that present an unsafe environment to students, staff or visitors. Access to campus facilities and buildings is addressed by Metro Technology Centers, Board of Education polices BP-5023, Building Security and Access Control, and; BP-3009, Use of Security Codes.

Visitors to the instructional buildings on Springlake Campus, South Bryant Campus or Aviation Campus, are required to check in at the front desk. Metro Technology Centers front office staff and administrators will ask for a photo identification from anyone requesting contact with high school students.

To provide for the security of the buildings and facilities, enable the completion of maintenance and other special projects, conserve energy and minimize risks to Metro Technology Centers, presence of students, staff and visitors inside the campus buildings is prohibited during non-operational hours.

During non-operational hours all buildings are secured by the security guards. Access during non-operational hours is by key and use of security access codes by the security guards only. Some staff members have authorization to utilize a key issued by Metro Technology Centers Maintenance Department. These employees must notify the security guard supervisor(s) of their need to enter the building(s) during non-operational hours. All others must gain non-operational hour access through direct contact with the security supervisor(s) and only with the authorization of the Superintendent or Superintendent's designee.

Contractors needing access to buildings during non-operational hours must have pre-approved authorization from the appropriate Metro Technology Center's administration. Security guards will not allow any unauthorized access to contractors. Contractors will notify the security guards when their work is completed and when they leave the building. Security guards will document all non-operational hour access provided to staff and contractors.

MAINTENANCE OF CAMPUS FACILITIES

Buildings and grounds are maintained in a manner that minimizes hazardous conditions. Metro Technology Centers Board of Education Policy, BP-5009, governs the maintenance of buildings and grounds. Security guards regularly patrol and report malfunctioning lights and other unsafe physical conditions to the Metro Technology Centers Facilities Services for correction. Students, staff and visitors are helpful when they report equipment problems or maintenance issues to security guards by pressing the Security button on campus Cisco phones or by dialing 595-4044.

Portions of the Metro Technology Centers Student Handbook are duplicated in this report in regard to sexual misconduct which includes but is not limited to sex offenses and stalking.

Sexual misconduct includes but is not limited to, unwelcome sexual contact or acts which involve intimidation, coercion, the implied use or threat of force, use of intoxicants to substantially impair the victim's ability to give effective consent, engaging in such acts when there is reasonable cause to believe the other person is in a mental state which renders him/her incapable of understanding the nature of the contact, or where the victim is a minor; indecent exposure and voyeurism. Stalking and sexual harassment are also examples of prohibited conduct.

Any student who is a victim of sexual assault/violence or sexual misconduct should report it immediately to a campus security authority who will then notify the Metro Technology Centers, Civil Rights Compliance Officer (Mr. Paul Howard, 1900 Springlake Drive, Oklahoma City, Oklahoma 73111 Telephone: (405) 595-4740) OR the Metro Technology Centers, Title IX Coordinator (Mr. Jade Carter, 1900 Springlake Drive, Oklahoma City, OK 73111, Telephone: (405) 595-4418.

What to do if you are a Victim of Sexual Violence

If you are not safe and need immediate help, call the police. If the incident happened on campus, press the Security button on campus Cisco phones, or press 9-911. If the incident occurred elsewhere in Oklahoma City, call 911.

Do what you need to do to feel safe. Go to a safe place or contact someone with whom you are comfortable. You can call the Rape Crisis Center at 405-943-7273 to get advice and discuss options for how to proceed.

Do not shower, bathe, douche, change or destroy clothes, eat, drink, smoke, chew gum, take any medications or straighten the room or place of the incident. Preserving evidence is critical for criminal prosecution. Although you may not want to prosecute immediately after the incident, that choice will not be available without credible evidence.

Go to the Emergency Room of the nearest hospital to receive care for any physical injuries that may have occurred. While in the emergency room, treatment will be provided for sexually transmitted diseases and to prevent pregnancy. It is important to receive medical attention, whether or not you plan to report the crime to police.

COMMUNITY RESOURCES FOR VICTIMS AND BYSTANDERS

Sexual violence can be very emotionally disruptive, and it takes time to come to terms with such a major stress. In addition to support that may be found in family and friends, the following agencies and departments can serve as resources for you.

It is important to be aware that different individuals who you may contact for assistance following an incident may have different responsibilities regarding confidentiality, depending on their position. Under state law, some individuals can assure the victim of confidentiality, including counselors and certified victims' advocates. In general, however, any other institution employee cannot guarantee complete confidentiality, unless specifically provided by law. As is the case with all institutions, Metro Technology Centers must balance the needs of the individual victim with an obligation to protect the safety and well-being of the community at large.
